

## Rhea 15 - Resurrection Practiced

~Deitys Diary-15~ Resurrection Practiced  
The misadventures of Rhea continue as her life catapults her from mystery to mayhem, mostly because she cant resist doing good deeds. After a Middle Eastern foray to help out Interpols Director General with an illegal antiquities matter, she makes a friend and cultivates a rather grave relationship, leading her into a personal modern day crusade against the world of black market relics spanning almost the entirety of global institutions. While resolving one such issue in Washington, she and her compatriot in mayhem, Illana, discover themselves gate-crashing the Presidents private dinner before being forced to save a life, this while being thankful to have only their posteriors shot as the evening drew down. Deciding to keep a low profile without truly appearing to understand the concept, they embark on a madcap dash across America to visit Rheas godmother in a sequence of events during which they learn more about Rheas long dead Egyptian friend and the still unfolding tale of her life, death, afterlife, after-afterlife, death and resurrection, all apparently encompassed within Rheas decidedly odd brand of Karma.
