COMPLETE OMEGA DEEP CLAWS SERIES BOOK 1, 2 and 3 OVER 100,000 WORDS BOOK! Gavin Macleod and Colin Mcrae have joined forces with Tanner, a shifter that had to defend his own way of life by faking his own death. He was the first to decide that what was right for the pack was not right for him. They have all decided that they were not going to run any longer. They stayed and confronted the enemy, only to be surprised by how easily the tracker was able to come after them. Colin and Tanner were pretty much useless to protect Gavin, but Gavin didnt need their protection. The wolf inside had fought back, but its efforts came up a little short. It was his best friend Jensen that had appeared to kill the tracker and then move on without saying a word. All three of them are now on their way to confront the Unger brothers. They will first have to deal with Tanner and Colins past indiscretions, not to mention a young man that isnt what he seems. **DISCLAIMER:** This book contains sexually explicit content that is intended for a **MATURE AUDIENCE ONLY**.
