

Essays on the Nature and Principles of Taste, Vol. 1 (Classic Reprint)

Excerpt from Essays on the Nature and Principles of Taste, Vol. 1 The first Edition of this Work was published in the year 1790. After so long an interval, I should not have presumed again to present it to the public, if I had not been informed by my booksellers, that some wish had lately been expressed for a Second Edition. In preparing it for the press, I have thought it my duty to add a few observations on the Origin of the Beauty and Sublimity of the Human Countenance and Form, to complete the Second Essay.
