

Xternity, Inc. (WATER WARS Book 1)

A time traveling ghost invades the supercomputer at Sunny Vale View, the original creator of websites for the dead. The company memorials - biographical archives complete with emotional replays - deliver experiences with such immediacy lost loved ones virtually return to live. The patented emotion repro technology is highly sought after and closely guarded. In the wrong hands, for the wrong purpose, use would court disaster. Prompted by the ghost, the CEO of this on-line graveyard becomes obsessed with stitching together a string theory of emotion and tempts fate conducting expeditions to the center of the mind. Then a push client instigates a cataclysmic series of events which trigger an evolutionary leap. Xternity, Inc. is the first installment in the Water Wars Trilogy.
