

New Beginnings (Vitalis Book 1)

Mysterious blackouts left Kira with precious few memories of events in her life, nevermind those worth sharing. Somewhere in those blank spots, she aquired skills, skills she was hard pressed to explain. But those skills got her a job as the new navigator for the Rented Mule, a transport ship that plied the Rim Systems at the very edge of human civilization. When their ship is set upon by pirates and damaged beyond repair, Kiras fears of surviving the attack pale in comparison to her fear of the secrets relating to the dark spots in her past. As each layer of truth peels back, Kira discovers a new talent, and with it comes the dread of finding out who she really is.
