

Employment Psychology the Application of Scientific Methods, to the Selection, Training and Rating of Employees (Classic Reprint)

A mong the sources to which I am indebted I wish to acknowledge, in particular, Mr. L. O. Pethick, whose intimate knowledge of industrial personnel problems contributed immeasurably toward making these applications of psychology immediately practical. A mong psychologists, I desire to express my thanks above all to Professors E. L. Thorndike, Roswell P. A ngier, H. L. Ho Uingworth, and R. M. Elliott, who most generously gave me of their own experience and knowledge. For the index and other valued assistance I am indebted to Miss Sabina Connolly. A mong the many friends and colleagues to whom I am grateful for very helpful cooperation are Mr. John L. Koehne, Miss Marion Gilbert, and Mr. J. H. J. A dams. In inscribing this book to my wife I am not only acknowledging a source of inspiration, but am faintly expressing my gratitude for her constant help in preparing the manuscript for publication.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
