

Energy Non-Crisis - The Oil Deception

That great pool of oil is probably as big as the Prudhoe oil field...but government has ordered us not to produce that well, or reveal any information as to what is at Gull Island...For forty miles to the east of Gull Island, there has not been a single dry hole drilled, although many wells have been drilled. This shows the immensity of the size of the field. [Lindsey Williams, Energy Non-Crisis.] Is peak oil a reality? Is the world really running out of oil? Who is responsible for the surging price of petrochemical products? Is someone, or some group, blocking oil production in Alaska and across the United States? How large is the oil field that was discovered on Gull Island in 1977? Who blocked development of the massive field, and why is oil production in that region blocked today? Lindsey Williams speech, The Energy Non-Crisis, explains the rising price of gasoline, the agenda of the men who rule the world, and what we can do to counter them. Also included is the pamphlet The Oil Deception, a series of newsletters written in 2005 & 2008 by Dr. Stan Monteith of Radio Liberty. They go into the background of peak oil and the perceived shortage that is being manipulated by the media for the benefit of a few...a secret few. These newsletters and DVD will unveil the truth about our oil and gas NON-Crisis.
