

Dawn of Flame and other stories

H.P. Lovecraft called his work ingenious, comparing them favorably to Edgar Rice Burroughs (of John Carter and Tarzan fame). Isaac Asimov said his A Martian Odyssey was one of three stories that changed how the science fiction genre was written. Stanley Weinbaum had a short but influential career as a writer of science fiction in the 1930s. A Martian Odyssey received great acclaim in 1934 and within 18 months, Weinbaum died of lung cancer.

Weinbaum was a member of the Milwaukee Fictioneers and, upon his death, they set about printing a small book containing several of his short stories. This is a recreation of that volume, inasmuch as the stories are concerned. An introduction by Lawrence Keating is not included.
