

Financial Accounting: Pearson New International Edition: A Business Process Approach

For introductory Financial Accounting courses that are not using debits and credits. Relevance for majors and non-majors accounting concepts explained in a business context. Financial Accounting: A Business Process Approach explains accounting concepts in a way all majors can understand by organizing the material around how a business works. This text's business process approach presents a business topic and then shows the accounting concepts behind it rather than solely explaining accounting concepts based on the balance sheet order.
