

The Last Escalation

The Last Escalation is an anti-war futuristic political satire. The book creates a new, unreal reality in which the Selected Democratic Organization, headed by new president Alexander Monroe, is pitted against the Free Islamic Forces under their new leader, Suleiman Aswad. The two quickly lead their respective nations to an apocalyptic military confrontation in the Fata Morgana Arabian desert in 2016. The plot centers on a bizarre, loony commando force sent behind enemy lines to rescue important Democrat prisoners.
