

A System of Psychology (Classic Reprint)

Excerpt from A System of Psychology My greatest effort has been to present as consistent and systematic a sketch as possible of the general field of normal human psychology, elaborating the details only when they are essential to the general survey. In a field which is in great and increasing danger of becoming unsystematized to the point of chaos, even to the trained specialist, this method of introduction is absolutely essential. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
