

The Color Out Of Time

Set in a beautiful New England vacation spot, a lake surrounded by wooded farmlands, the narrator and his professorial colleague discover eerie and sinister features about this area. The lake shimmers with a disturbing, unnatural color; tourists disappear; an evil presence sickens or twists the thoughts of the park rangers and vacationers alike. Seeking to discover the nature of this horror and prevent further deaths, the narrator and his friend suspect that the lake hosts an alien monstrosity. Together with a long-time resident and sister of one of the areas past victims, they muster all their strengths and skills to combat a terrifying opponent. Shea's literary skills and insight into character and group behavior are as skillful as his ability to create fantastic and nightmarish scenarios. An homage to H.P. Lovecraft's story *The Colour Out of Space*, Shea's haunting, fast-paced novel continues that narrative. A new Introduction by the author is included. By the author of the Fantasy Award winners *NIFFT THE LEAN* and *The Growlimb*, and a finalist for several Hugo and Nebula awards. Michael Shea may not be the only writer hybridizing science fiction and horror, but he is certainly among the best. - Publishers Weekly Michael Shea puts his people in the damnedest nightmares. - Stuart Gordon, writer/director of *Re-Animator* Michael Shea has long been one of the most vital writers of horror, fantasy, and science fiction. The imaginative scope of his work is exceeded only by the gripping and evocative vibrancy of his prose. - S. T. Joshi, award-winning author of *H.P. Lovecraft: A Life* Michael Shea has graced the field of the fantastic for more than thirty years. His prose is as rich and inventive as his considerable imagination - Ramsey Campbell, multiple World Fantasy Award-winning author. Shea demonstrates what a boundary bender can do to make us rethink our definitions. - Locus Magazine

Michael Shea has been writing dazzling books of fantasy and horror since the early eighties, and over the intervening decades, readers who come to him for the first time invariably wind up asking themselves, Where has this guy been all my life? - Peter Straub, bestselling author of GHOST STORY and SHADOWLAND (Shea is) one of the most interesting mavericks in the field. - Locus Magazine about the author: Michael Shea was born in Los Angeles in Culver City, across the street from the huge north wall of MGM Studios main lot. There, the billboard-size movie ads greeted his infant eyes, and taught him awe and a love of grand narratives. An inveterate hitch hiker before, during, and after his college years, he encountered, in a flophouse up in Juneau, Alaska, a book of pure Fantasy entitled The Eyes of The Overworld. A year or so later, at a different flophouse in the Fillmore District (a ghetto in those days) of San Francisco, he encountered AT THE MOUNTAINS OF MADNESS. His aesthetic goose was cooked, though he didn't come to know it till a couple years later, when he began writing Sword and Sorcery, and Mythos. He's won two WFAs, was a finalist for a third, was twice a finalist for Hugos, and twice for Nebulas. His work has been translated into French, German, Russian, Italian, Japanese, Swedish, Hungarian, Finnish, Greek and Urdu. (Nonot Urduthats just a little joke.)
