

## The Hurr of Thara (The Darad Series)

The sequel to *The Defiance of Pareus*. Fareg, Pareus cousin, succeeds to the throne of Thara at 19 years of age. His first few years on the throne herald a time of upheaval. First he has to confront a rebellion by Emeda Skintan, his father's one-time First Counsellor, a man with large ambitions indeed. Then the bride selected for him under a 10-year-old treaty, Ilsen of Bodmen, is kidnapped and hauled off to Basandra, where her captors, led by her exiled father, intend to forcibly marry her to Prince Rhyun, Basandra's ruler, another man of large ambitions. Rhyun's country is pressed by invaders from the north; his invasion of Bodmen is held back in battle after battle by loyal Bodmenan forces while Fareg and his companions desperately search for Ilsen. Without the magical help of one of the Ceahuin they would have no hope at all of success. But there are other dangers out there in the mountains, other magics which throw a deadly twist into the mix. Both Fareg and Ilsen must draw on all their courage to win through.
